

Research Leaders (KOL) Brief: Alzheimers Disease

A cited snapshot of the most active research leaders, institutions, and topics in this area, computed from recent PubMed records. Names are public academic authorship; every figure is verifiable by PMID.

Corpus: 3,000 PubMed papers (2021-2026) matching 'lecanemab OR donanemab OR amyloid beta Alzheimer disease' . Source: NLM PubMed E-utilities . Generated July 21, 2026

Top research leaders (by recent publication volume in this area)

#	Researcher	Primary affiliation	Papers	Active
1	Zetterberg Henrik	University of Gothenburg	63	2025-2026
2	Blennow Kaj	University of Gothenburg	42	2025-2026
3	Hansson Oskar	Clinical Memory Research Unit	17	2026-2026
4	Rosa-Neto Pedro	McGill University	16	2025-2026
5	Vemuri Prashanthi	Mayo Clinic	14	2026-2026
6	Head Elizabeth	University of California	13	2026-2026
7	Cruchaga Carlos	Washington University School of Medicine	13	2026-2026
8	Zeng Xuemei	University of Pittsburgh	13	2026-2026
9	Chinnathambi Subash	National Institute of Mental Health and Neuro Sciences (NIMHANS)	12	2026-2026
10	Palmqvist Sebastian	Clinical Memory Research Unit	12	2026-2026
11	Li Yan	National Clinical Research Center for Geriatric Diseases	12	2025-2026
12	Rahmouni Nesrine	McGill University	12	2025-2026
13	Wang Qi	Affiliated Hospital of Jiangsu University	11	2026-2026
14	Jessen Frank	German Center for Neurodegenerative Diseases (DZNE)	11	2026-2026
15	Therriault Joseph	McGill University	11	2025-2026
16	Kollmorgen Gwendlyn	Roche Diagnostics GmbH	10	2025-2026
17	Yang Hyun-Sik	Brigham and Women's Hospital	10	2026-2026
18	Wiltfang Jens	German Center for Neurodegenerative Diseases (DZNE)	10	2026-2026
19	Salvadó Gemma	Clinical Memory Research Unit	10	2025-2026
20	Stomrud Erik	Clinical Memory Research Unit	10	2026-2026

Leading institutions (by author output)

University of California (69), College of Medicine (59), College of Pharmacy (59), Massachusetts General Hospital (51), Mayo Clinic (42), University of Southern California (39), University of Pittsburgh (34), University of Gothenburg (32), Brigham and Women's Hospital (29), Washington University School of Medicine (26)

Most active subtopics (MeSH)

Alzheimer Disease (1622), Amyloid beta-Peptides (1313), Mice (523), tau Proteins (512), Brain (469), Biomarkers (414), Disease Models, Animal (405), Peptide Fragments (365), Mice, Transgenic (332)

Top journals

Alzheimer's & dementia : the journal of the Alzheimer's Association (165), Journal of Alzheimer's disease : JAD (140), Alzheimer's research & therapy (91), International journal of molecular sciences (79), bioRxiv : the preprint server for biology (74), Molecular neurobiology (58), The journal of prevention of Alzheimer's disease (58), Alzheimer's & dementia (Amsterdam, Netherlands) (45)

Publication momentum

2025: 85, 2026: 2915

Method and honest limits

Built from 3,000 recent PubMed records matching the query above (free E-utilities). Ranking is by publication volume in this set. This free sample does NOT disambiguate identical author names, weight by citations, or map co-authorship networks or clinical-trial roles - a paid brief adds ORCID disambiguation, citation weighting, trial involvement, and contactable-affiliation verification. Names are public authorship record; no private contact data is included. Verify any researcher at pubmed.ncbi.nlm.nih.gov.

Want the full ranked KOL map for your exact indication, molecule, or region? Reply and we'll scope it.
